CITY VIBES

Kronospan

Decor featured:
K370 SM **Noir Deluxe**

In keeping our commitment to constantly absorbing design trends from across the world, this latest Kronodesign® Trends Collection brings you an array of exciting new decors. Our City Vibes theme is the platform for looks inspired by four of the world's most iconic cities. The resulting new additions are here to keep your design palette up to speed with the latest moves in global design.

Our focus is to enable and inspire design professionals on an ongoing basis. Contrasts, complements, myriad shades and textures, the organic, the urban, the cool, the outré – Kronodesign® Trends and City Vibes continue to give you the latitude to create with worldwide freedom.

Manufacturers of inspiration

It’s what we do.
With more than 40 manufacturing plants around the world and 15,000 people, who are 100% focused on giving you pure inspiration.

Like the design communities we serve, we see ideas anywhere and everywhere in the world. So Kronodesign® is a kind of conduit – taking inspiration from far and wide while collaborating with designers and paper manufacturers across the globe to feed imagination through boards with outstanding creative scope.

Constantly bringing more realism and character to decors takes a lot of technical knowhow and resource, not to mention decades of research and development. We call this the pursuit of perfection - a journey without end that always informs everything we do.

With ever-more realistic textures and coloration, Kronodesign® continues to bring boards to life, and life to boards.

Our design journey

Our design journey never ends because design never stops evolving. We continue to create decors with a strong commercial edge as a result of the restless pursuit of what's happening now and next.

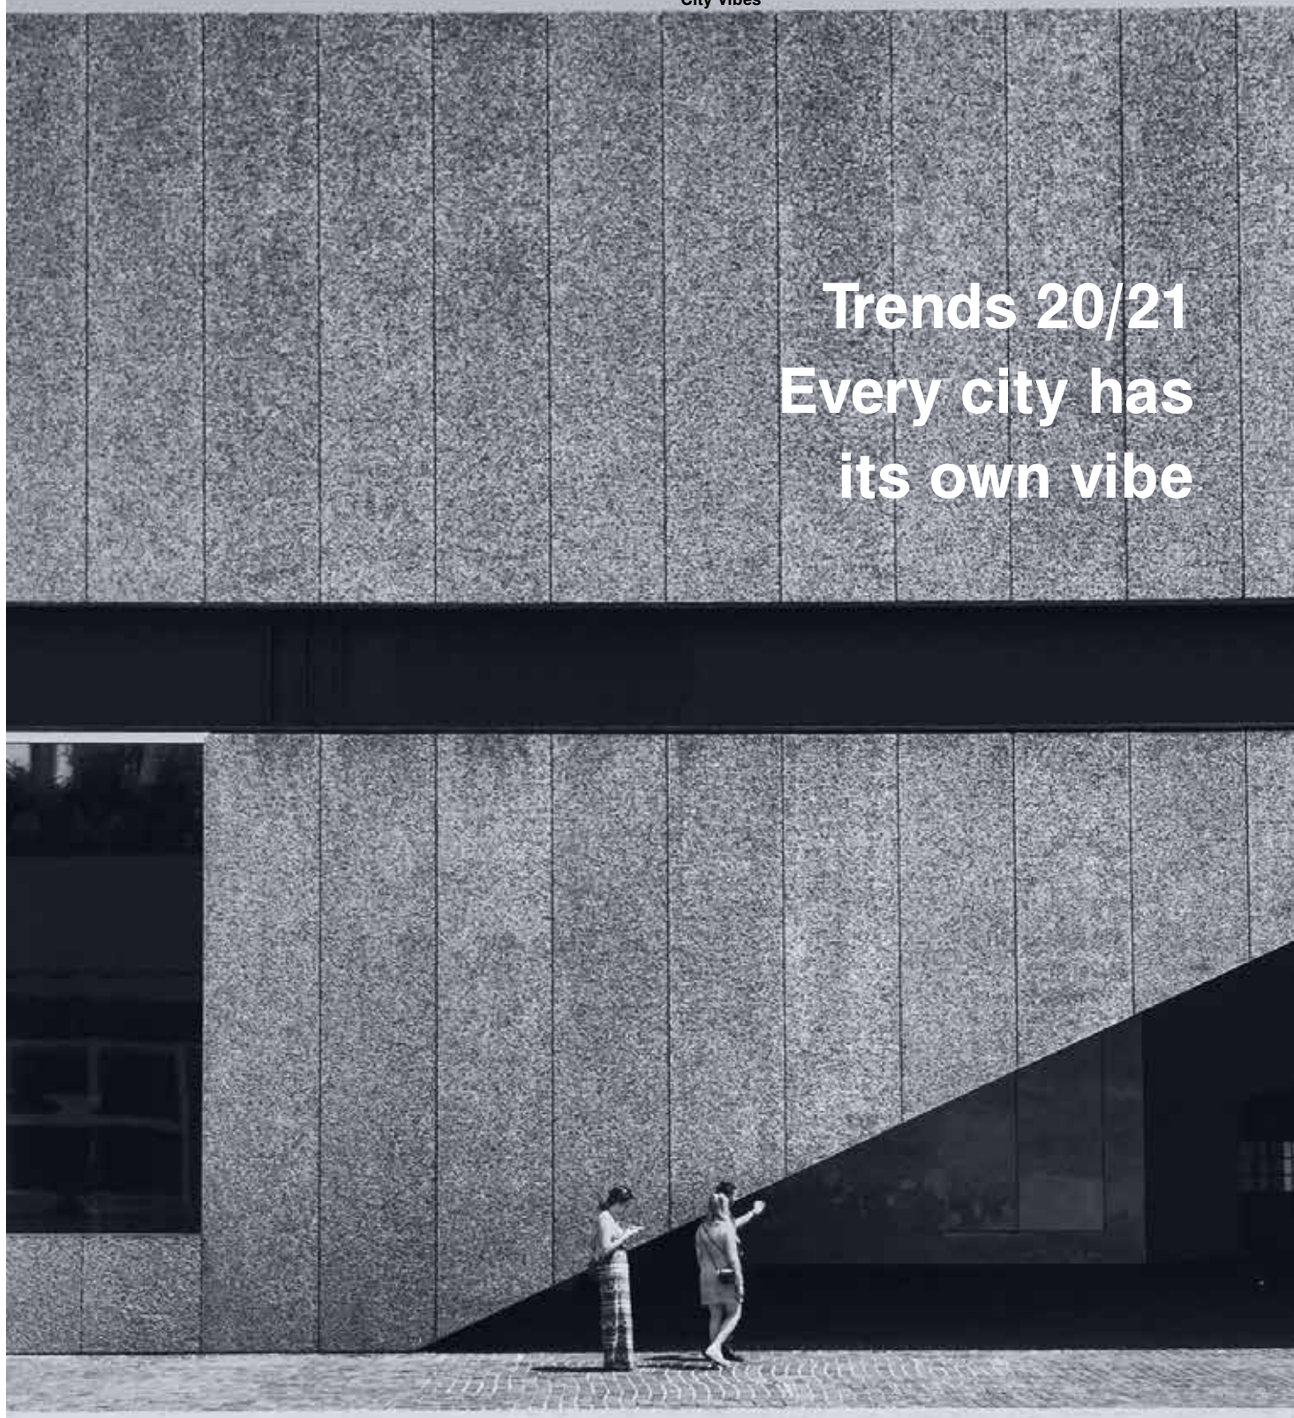
That certainly means eagle-eyed monitoring of forecasts and maintaining dialogues with the industry, to fully understand where markets are moving. But just as importantly, we make our own physical journeys around the world.

We take in expos and seminars on every continent, and talk to designers everywhere about their own inspirations and observations. These on-the-ground collaborations include paper manufacturers as well.

To truly understand the design world's constant shifts, you must take input from far and wide. That's what underpins a collection like City Vibes. Simply taking the name of Moscow, Barcelona, Milan or Warsaw is not enough; the true spirit of a city, its culture and people must also be explored.

So wherever it takes us, our journey has the surprises, twists and turns that echo the nature of global design itself. The key is then to listen to our customers and design partners to hone in on the exact looks they know will work in their markets. The inspiration may be wide and diverse, but the resulting selections are always highly focused on maximum commercial potential.

Ultimately you get the best of both worlds in a collection like City Vibes – new and different decors which fit with both changing tastes and pure business reality.



Trends 20/21 Every city has its own vibe

Cities lead the charge in defining the new. It's that amazing mix of legacy, cultural identities and energy which thrive in urban settings that has inspired our City Vibes collection. The decors are a distillation of urban life, aesthetics and spirit.

Kronodesign® Trends 20/21 reflects the transformational power of great design and the sometimes haphazard evolution of urban environments, as evidenced in four distinctive cities – Barcelona, Milan, Moscow and Warsaw.

The distinctive dynamic of each city informs each decor vibe – in color, texture and intensity. These inspirations come from streets, spaces, architecture and people. They come from the new, the old, the cultural diversity, the contrasts and contradictions, and the realities and myths of each location.

A city's vibe is a complex essence – that's why it's so rewarding to explore, so attractive to numerous people, and such rich source of inspiration for designers.

Inspiring Barcelona
A city of art and imagination

A vibrant Mediterranean port city with astonishing cultural wealth is a rich seam of creative inspiration by definition. Barcelona is just that, with it's Catalan color, gaudiness, civil strife, art and passion.

We've witnessed sleek steel textures, woodgrain raised by the sun, vivid ceramic tones and cool cathedral marbles – Barcelona's palette revels in the visual, whether the thrust is ultra-modern or mannered classicism.

Inspiring Barcelona
Trends Combinations

Vibrancy is the keyword.
Grange Oaks deliver expressive grained textures in characterful plank forms.
Grey Atlantic Marble evokes a sense of urban chic in any interior. Barcelona's confluence of the classic and the contemporary is expressed in the worn texture of Concrete Flow and Charcoal Flow.
Light is softly caught and tones are subdued for an urban take on the metro theme.

Sophisticated Milan
Created by the evolution of style

Milan is an unwavering balancing act of business and culture – a city where both sides interact and thrive from each other. The Milanese have a knack for exuding elegance. Their city works as well as it parties, and is sophisticated but never subdued.

The interplay of style and impact gives you chic marbles and rich, luxurious wood tones. At every turn, you're caught by highlights and subtle contrasts, deep textures and polished facades – the Milan City Vibe fires imagination.

Contemporary Moscow
A city living in the now

For many, Moscow is the epitome of a city living in the now. A huge population results in a place of widely varied cultures and life patterns. It's an intense dynamo of a city, full of confidence and scale. History is abundant, but Muscovites have their eyes focused on the future.

Concrete vies with ultra-modern finishes and forms, winter blasted timber shows its fibre, and uber-chic surfaces of new malls gleam – Moscow's contrasts of tone and texture are plentiful and astonishing. This is a vibe capable of amazing mood variations.

Contemporary Moscow
Trends Combinations

The current move toward interiors exuding rich texture and color in harmony is a natural application for decors such as Honey and Brandy Castello Oaks. Castello Oaks combine woodgrain and color in perfect proportions. The stand out effect of Rusty Flow and its metallic finish pairs beautifully with lighter shades. Add a dash of Cream Navona to hint at the life-at-the-top chic that Moscow depicts so enthusiastically.

Dynamic Warsaw
A dynamic harmony of life

Warsaw is all about change and vigour, rapidly growing in business, stature and confidence. It's vibe is one of dynamism and creativity, Warsaw is showing a bold face and drawing a lot of attention.

Old stone and weathered iron co-exist with striking new materials – texture and depth are everywhere, light and shade, matt and gloss, vivid, expressive, tactile – Warsaw's vibe gives out an inviting, accessible appeal that's truly open to change.

Worktops

The solidity of stone and concrete-like surfaces creates a feeling of integrity and quality, and our worktop range brings those qualities to the forefront. With an array of stone effects from granites to marbles, and so many tones and textures to choose from, it's easy to create an individualistic expression of style with an unmistakable touch of elegant quality.

PH Palazzo Touch NEW
Inspired by vintage marble and soapstone textures, the dual gloss surface replicates natural cracks and indentations with a burnished, waxy touch.

GM Glitter Matt NEW
Elegant matt texture, combining a soft, silky touch with the eye-catching and subtle sparkle of aluminum flecks.

Slim Line

Four new decors are complementing the sophisticated range of our ultra-thin Slim Line worktops. They deliver the aspirational keynote look that's so popular in urban interiors, with the added attraction of the bold black uni-colors with a velvety or slate surface finish to the marble designs that can give luminosity and elegance to any setting.

PH Palazzo Touch NEW

Inspired by vintage marble and soapstone textures, the dual gloss surface replicates natural cracks and indentations with a burnished, waxy touch.

AF Authentic Fine NEW

Velvety texture with a luxurious soft-touch tactile effect and an anti-fingerprint finish.

Seamless harmony across the range

When it comes to design, we believe that there's nothing more important than expressing yourself – which is why our range is so diverse. But there's harmony within those ranges. Whichever collection you choose, you will always find complimentary products and designs to inspire your creativity and help complete your vision.

Everything we do is geared towards transforming ideas into reality, so you can be certain that our entire collection has been developed with your aesthetic ambitions in mind.

MELAMINE FACED BOARDS (MF Boards)
Melamine Faced Particleboard (MF PB) is a wood-based panel constructed by three layers of resin-bonded wood particles produced under pressure and heat, with a resin-impregnated decorative paper pressed onto the surface.
Melamine Faced Medium Density Fiberboard (MF MDF) is constructed by resin-bonded wood fibers produced under high pressure and heat with a resin-impregnated decorative paper pressed onto the surface.

EDGING
Furniture protection and finish edge bands are perfectly matched to our decor range and textures.

HIGH PRESSURE LAMINATE (HPL)
HPL is produced by pressing multiple core layers and a decorative resin-impregnated paper. The perfect material for surfaces that require enhanced durability and impact resistance.

WORKTOPS POST-FORMED
High Pressure Laminate (HPL) bonded to wood-based Particleboard (PB) constructed by three layers of resin-bonded wood chips produced under pressure and heat, machined and profiled with a post formed edge.

WORKTOPS ABS SQUARE EDGE
This is the modern version of a worktop and features a straight edge and 1.5 mm ABS edging that gives a sturdy, square look. The simple, cleaner lines make these worktops perfect for any contemporary or minimalist kitchen design.

SLIM LINE
Special selection of 12 mm compact boards with a monochrome colored core, improved resistance to abrasion and moisture. Slim Line worktops can be used horizontally and don't need additional edging or surface finish processing.

LACQUERED HDF (LHDF)
High Density Fiberboard (HDF) constructed by resin-bonded wood fibers produced under high pressure and heat, with a decorative lacquered surface.

MIRROR GLOSS
Mirror Gloss Boards are wood-based panels with superfine surface covered with resin-impregnated decorative paper pressed using innovative technology giving a superior gloss surface.

ACRYLIC GLOSS
Based on a 17 mm premium MDF material, covered with 0.7 mm gloss lacquered acrylic film on the front side and 0.6 mm high-impact polystyrene film on the reverse to improve stability. The boards have excellent impact strength, exceptionally high gloss levels and improved scrub resistance.

ACRYLIC MATT
Based on a 17 mm premium MDF material, covered with 0.7 mm matt lacquered acrylic film on the front side of the board and a 0.6 mm high-impact polystyrene film to the reverse side to improve its stability. The boards have excellent impact strength, scrub resistance, high UV stability and improved anti-fingerprint properties, as well as a protective PE foil that shields their surface.

COMPACT INTERIOR
Compact Boards are high-pressure structural laminates consisting of multiple core layers with a decorative resin-impregnated paper. Their durability, structural strength and moisture resistance make them ideal for interior and commercial applications subject to high impact and moisture, as well as for use in heavy duty areas.

METAL BOARDS
Metal Boards are produced based on Kronospan MDF, one-sided coated with real aluminum sheet, with scrub resistant quality and protective foil.

FINISH FOIL
Special paper, colored or printed on, with a lacquer-coated surface.

2D FOIL
2D Foil is PVC film suitable for different processing technologies such as profile wrapping, flat laminating and folding.

3D FOIL
3D Foil is high-quality thermoplastic laminate that can be processed on any common thermoforming press.

Integrated solution

Although we develop our designs exclusively we always ensure that our products are complementary. So whatever the project – whether it's planning, designing or furnishing – our products all work well together, giving architects, designers and craftsmen the freedom and flexibility to really express their creativity.
