Decorative Boards	
Global Collection	4
UK Local Collection	7
Worktops	
Global Collection	7
Color Match	9
Integrated Solution	11
Matching Edging	12

An inspirational collection of over 270 Decorative Boards and Worktops compiled from global and local market trends for the architectural, furniture and interior design industries. From authentic woodgrains to stone and concrete effects, with an array of textures, including four new ones, and the new Harmony range featuring synchronized embossed realism. Not forgetting gloss and matt finishes, unicolors and metallics, plus a choice of 157 matching Laminates.

For more information or to order samples, please visit: www.kronospan.com

AVANT-GARDE

Avant-garde combines the elegance of Acrylic Gloss and Mirror Gloss, with the nuances of Acrylic Matt and adds the contrasting sheen of real brushed metal. Ideal for use in high-end residential and commercial projects.

ACRYLIC GLOSS - SENOSAN®

Available in 6 colours, Acrylic Gloss - Senosan® AM1800 TopX boards are produced on MDF with a gloss acrylic layer bonded on to the front side and a matching polystyrene matt layer to the reverse side to improve the stability of the board. The acrylic layer conveys an exceptional high gloss level and deep colours.

ACRYLIC MATT - SENOSAN®

Elegant and understated, our Acrylic Matt anti-finger print - Senosan® AM1800 TopMatt boards combine a subtle appearance with genuinely tactile appeal. The finish has to be seen to be truly appreciated – we developed it specifically to bring warmth and allure to your most interesting furniture and interior projects.

MIRROR GLOSS

Mirror Gloss boards are medium density fibreboards (MDF) covered with resin-impregnated decorative paper pressed using innovative technology giving a superior gloss surface. Pushing the limits of depth, definition and levels of reflection, Mirror Gloss brings a gleaming touch of luxury to any space. Available in 6 sophisticated on-trend shades these MF Boards are durable, scratch resistant, light and colorfast with an unsurpassed gloss level. Suitable for all applications where luxury, lustre and durability are a necessity, Mirror Gloss takes its chance to shine.

METAL

6 Metal designs produced on MDF, one side coated with a real aluminium sheet, with scrub resistant quality and a protective foil.

MF BOARDS

Our Melamine Faced Boards look great and do the job. The range includes authentic wooden reproductions as well as muted and vivid unicolors with exclusive textures that are easy on the eye and lovely to touch. They're perfect for all kinds of furniture and interior design projects.

HARMONY

Discover a new collection of 9 impressively realistic decors with multi-dimensional synchronized embossing. Their textures effortlessly trail the twists and lines of the woodgrain designs, creating seamless harmony and a high-end look and feel.

COLOR

We just love color. We love it so much that we've taken inspiration from everywhere to create this range. Muted tones, loud and proud – we've got them all and everything in-between. We want people to be free to express themselves, so combine authentic wooden patterns with pure color. It's all about transforming a space.

CONTEMPO

Our design ideas are drawn from far and wide, and we're proud to offer the kind of surfaces that contemporary designers visualize. To make sure this is always the case, we spend a lot of time researching international trends and listening to what the industry is telling us; resulting in the addition of 17 new decors in Contempo, with the introduction of two new textures, Rift Woodd and Pluton. This way, we can be certain that the Contempo collection continually provides the inspiration our customers need.

STANDARD

Our high quality melamine range spans both contemporary and traditional wood designs. A uniquely versatile material, it's the ideal basis for almost any furniture, shop-fitting, bedroom or hotel project. In fact, why stop there? You're only limited by your imagination.

MATCHING LAMINATES

Our Melamine Faced Boards look great and do the job. Now we're pleased to present a full range of matching Laminates available ex-stock to complement our Global Collection.

WORKTOPS

Refined wood, authentic stone, marble and granite reproductions and a new deep slate texture with the distinctive look and feel of weathered stone – with the introduction of 17 new designs these form some of the choices in the Kronodesign® collection of 50+ Worktops, Breakfast Bars, Slim Line and Upstands. Sophisticated yet practical, they give you all the options you need to add an original finishing touch to your design.

POST-FORMED

High Pressure Laminate (HPL) bonded to wood-based Particleboard (PB) constructed by three layers resin-bonded wood chips produced under pressure and heat, machined and profiled with a 3mm radius post-formed edge.

ABS SQUARE EDGE

This is the modern version of a worktop and features a straight edge and 1.5 mm ABS edging that gives a sturdy, square look. The simple, cleaner lines make these worktops perfect for any contemporary or minimalist kitchen design.

SLIM LINE

The Slim Line Collection is a range of special 12mm compact boards that combine a slim profile with maximum durability. Functional and good looking, they come in a choice of 8 decors and feature a monochrome colored core that gives the perfect edge finish to any premium project.

UK LOCAL COLLECTION

The Kronodesign® Local Collection of Decorative Boards has been carefully selected to complement the inspirational Kronodesign® Global Collection and thereby meet the specific needs of the UK market. The collection of proven and popular decors, comprises of 20 of the bestselling Unicolors, Grained Colors and Woodgrains across a selection of textures.

We make every effort to ensure the RAL, NCS and PANTONE references provided are the closest available match. Please request a product sample from kronospan.com

INTEGRATED SOLUTION

With Kronodesign® boards you are getting an exclusive, high quality and on-trend design, but we always ensure that our products are complementary. So whatever the project, our products all work well together, giving designers and craftsmen the freedom and flexibility to create without restrictions. So there are always perfect matches across a range of products, this is what we call integrated solutions.

MELAMINE-FACED PARTICLEBOARD (MF PB)

Wood-based board constructed by 3 layers of resin-bonded wood chips produced under pressure and heat, covered with a resin-impregnated decorative paper. MF PB is for use in dry conditions, it has high mechanical, chemical and thermal resistance.

MELAMINE-FACED MDF (MF MDF)

Formed by covering a Medium Density Fibreboard core with a decorative resin-impregnated paper. The Medium Density Fibreboard is constructed by resin-bonded wood fibres produced under high pressure and heat, and covered with a resin-impregnated decorative paper.

WORKTOP

Wood-based particleboard constructed by 3 layers of resin-bonded wood chips, produced under pressure and heat and covered with HPL and post-formed edge strengthened by HDF frieze. The final product has high abrasion, impact and scratch resistance.

2D FOIL

The 2D foils are special films made of PVC suitable for different processing technologies such as profile wrapping, flat laminating and folding. The surface is lacquer coated which makes it scratch, mark and stain resistant.

3D FOIL

The 3D foils are thermoplastic laminates applied as decorative surfacing for lamination to raw MDF material using a thermoforming process. The surface of the 3D foil is coated with a scrub resistant lacquer that protects the material and is used for the manufacturing of furniture components, retail interiors, hospital areas and office spaces.

HPL EDGING

HPL edge bands are made of multiple core layers and a decorative resin impregnated paper. They are used for finishing the profiles of worktops, adding a neat finish and durability. HPL edging is perfectly coordinated to other Kronospan decorative products.

ABS / PVC EDGING

Edging tape is a thermoplastic edging product used for finishing the profiles of laminated wood-based products, such as particleboards, MDF and HDF, providing the perfect finishing touch of all surfaces. The edging has both protective and decorative properties and is specifically matched to our decors in terms of colour, grain, surface texture and gloss.

COMPACT BOARD / COMPACT INTERIOR

Compact boards are decorative high-pressure structural laminates, suitable for special use in horizontal and vertical applications. The boards are made of multiple core layers and decorative resin-impregnated paper. They are moisture and water resistant, with high durability and resistance.

LACQUERED HDF

High density fiberboard with lacquered surface, constructed by resin-bonded wood fibers, produced under high pressure and heat. The product has many applications in interior and furniture design, backboards of cabinet furniture, drawer bases and interior doors production.

HIGH-PRESSURE LAMINATE (HPL)

High pressure laminate is a decorative surface material with special performance properties including high-wear and water resistance. It consists of multiple core layers and a decorative resin-impregnated paper. It is the perfect material for surfaces that require enhanced durability and impact resistance.

Matching Edging
