HIGH PRESSURE LAMINATE

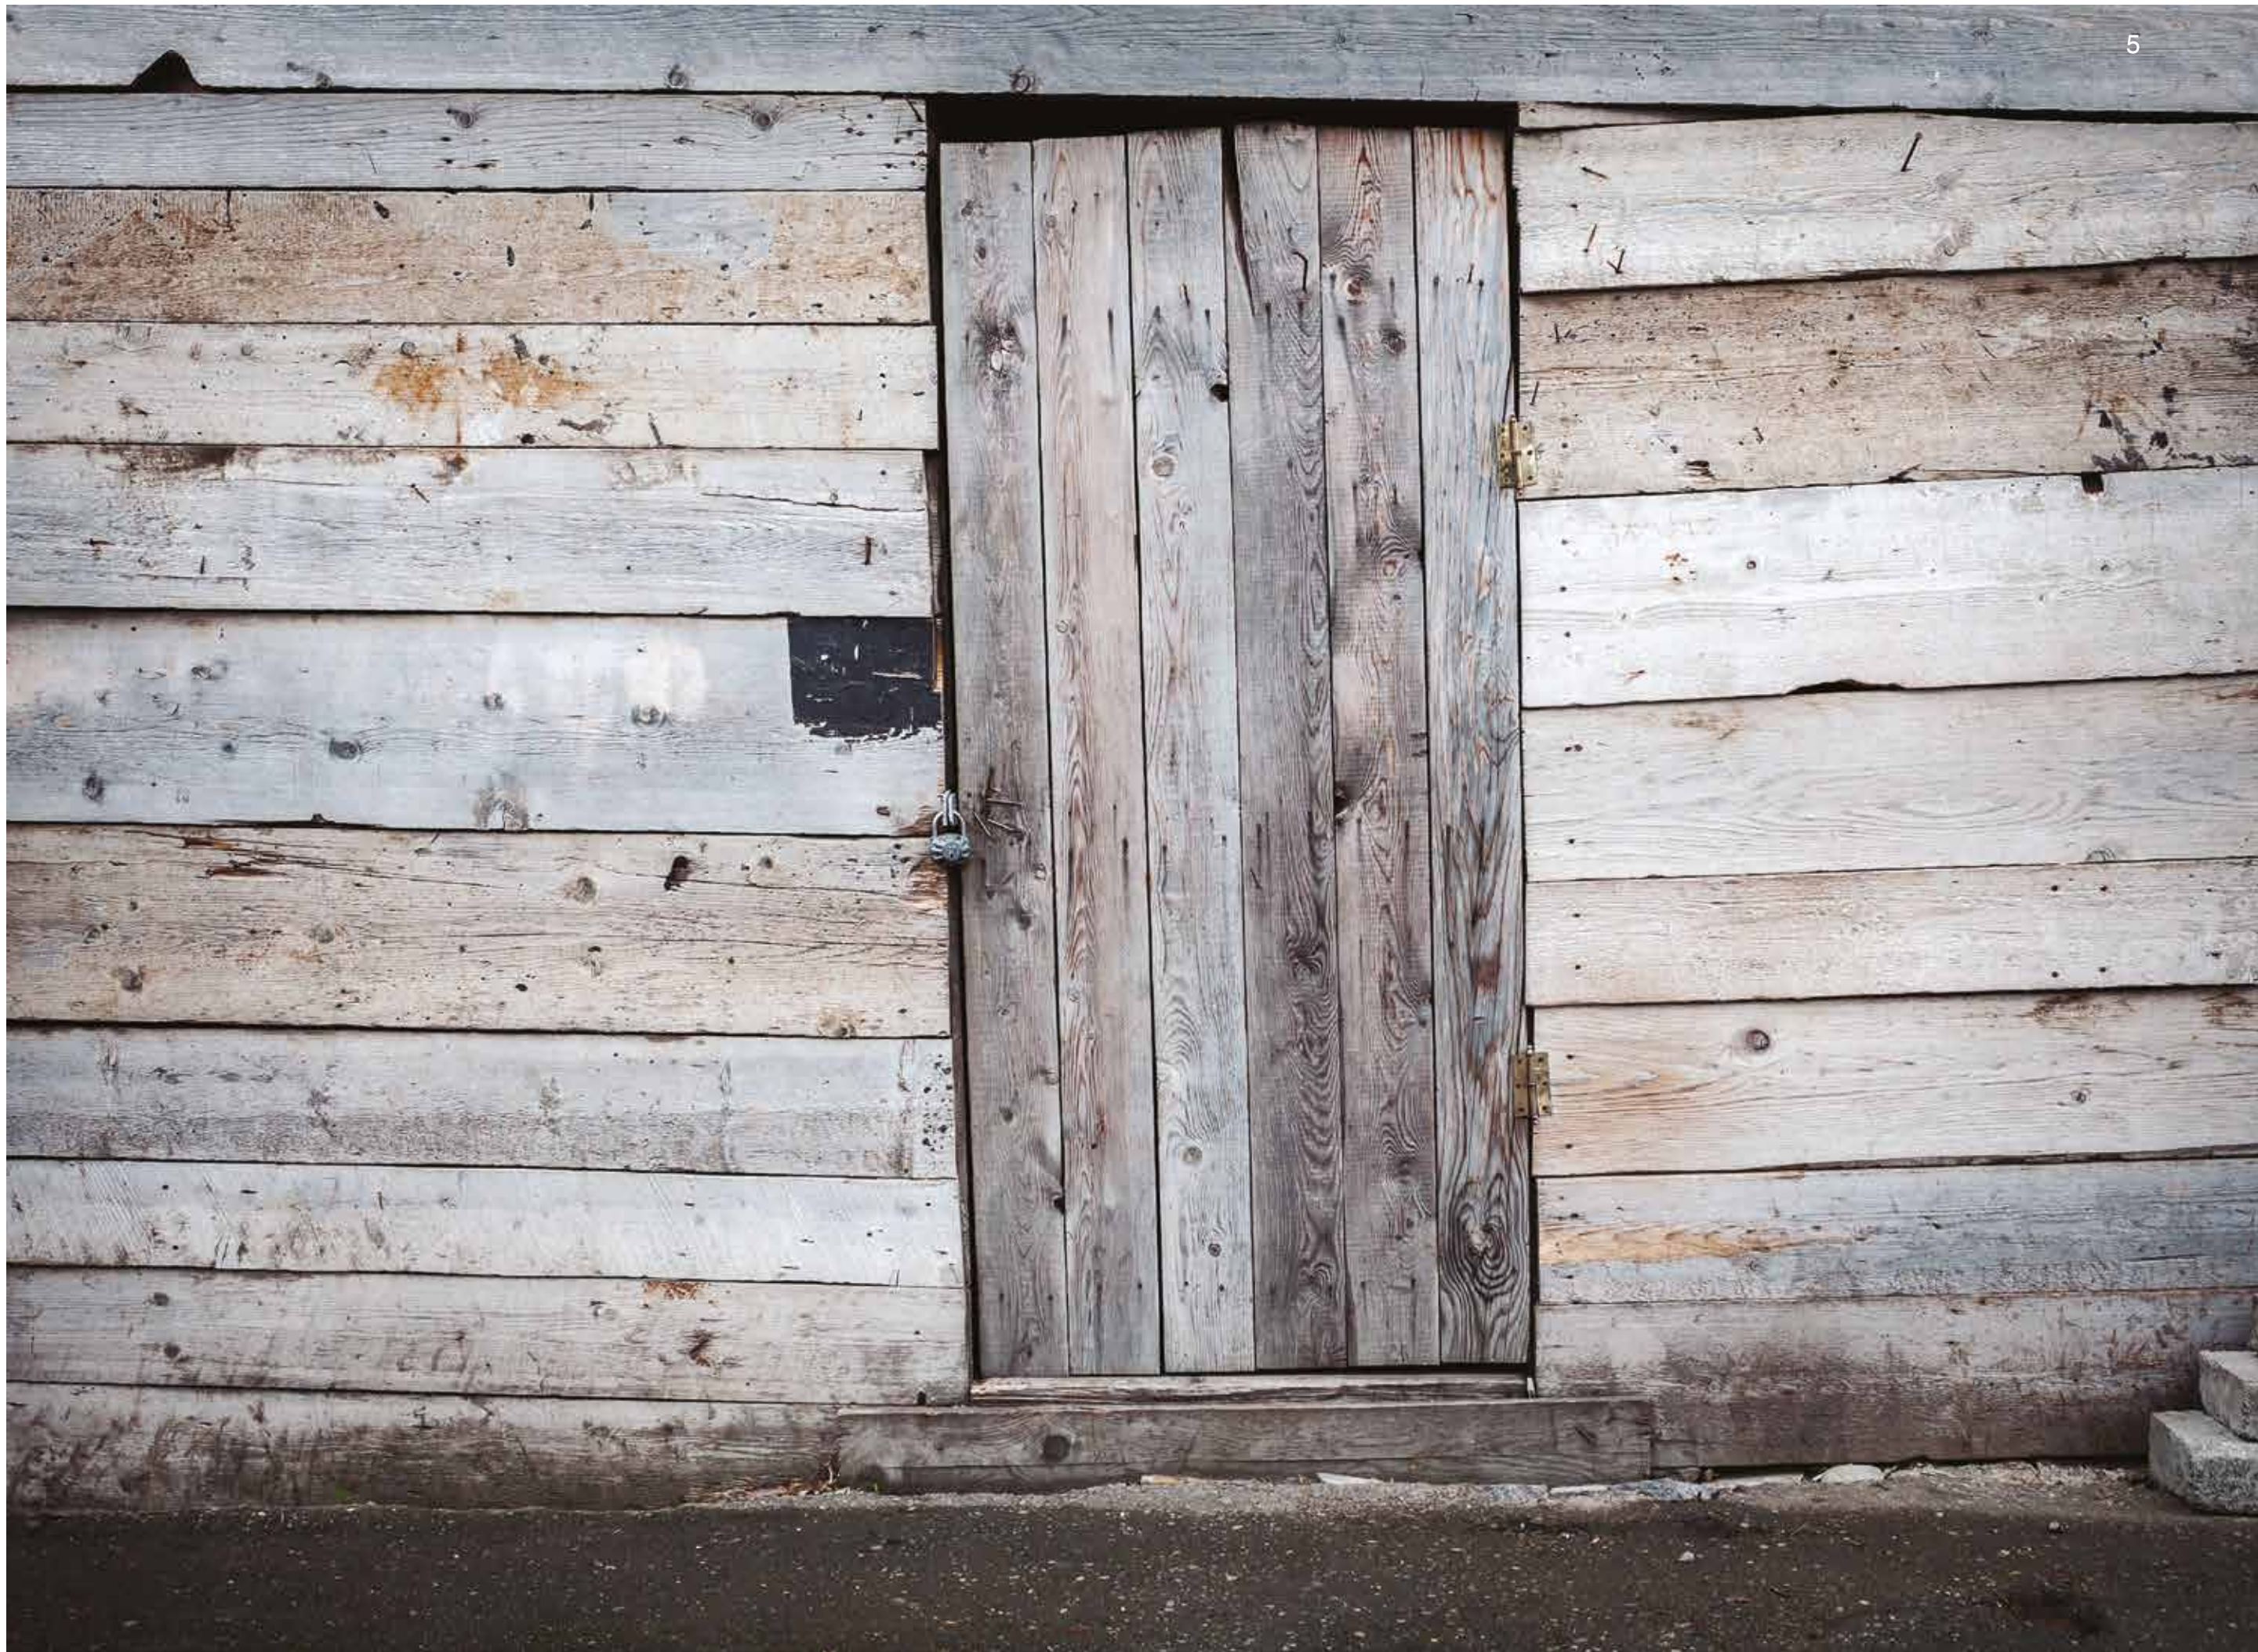

# The inspiration

## PLANK BOARDS THAT TELL A STORY

Take in the Grange Oaks, three decors that give every indication of having had a previous life. One perhaps reclaimed from a factory as architectural salvage, another saved after a lifetime on a weather beaten coastline. The third an old barn that deserves a more decorative home. Bursting with character these are eye-catching representations of other times and places.

# 01

# The Collection

## REINCARNATED IN AN IMPROVED FORM

You have to admire the reclaimed industrial tones of Colonial Grange Oak, sunbleached and weathered Platinum Grange Oak, or the timeless midtones of Sand Grange Oak. Featuring a recycled plank effect, with saw marks, knots and splits, this is a practical and effective way to recreate the repurposed timbers in furniture, features, and anywhere else the recycled look is desired.

Available in MF PB, MF MDF and MFHDF with matching laminates and edging.

K354 PW Colonial Grange Oak

# The texture

## THE LOOK AND FEEL OF VENEER

Available on our Pure Wood (PW) texture; a stunningly realistic timber effect with a semi-matt finish that looks uncannily like a lightly polished veneer, but with all the manufacturing benefits of Melamine Faced Boards; strength, reliability, easy to work and a totally consistent performance.

# The Combinations

## MIX AND MATCH, COMPLEMENT AND CONTRAST

There are endless combinations that bring out their own distinctive characters when blended together. The Grange Oaks gutsy characteristics go well with pastel unicolors and natural stone finishes. The Platinum Grange Oak works well with cool coastal tones, the distressed browns of the Colonial and Sand Grange Oaks are most at home with other rustic and earthen values.

# The integrated solution

## SEAMLESS HARMONY ACROSS THE RANGE

With Kronodesign® decorative surfaces you are getting an exclusive, high quality and on-trend design, but we always ensure that our products are complementary. So whatever the project our products all work well together, giving designers and craftsmen the freedom and flexibility to create without restrictions. So there are always perfect matches across a range of products as well as laminates, edging and foils. This is what we call integrated solutions.

# 05

# The environment

## BIG STEPS TO A SMALL CARBON FOOTPRINT

Manufactured at our factory in the UK from a mix of recycled and FSC® certified timber, Kronodesign boards are environmentally friendly and 100% recyclable.

And in the home environment our Melamine boards and HPL have exceeded the international standard ISO 22196:2011 (which measures a surface's antibacterial effectiveness and the reduction in bacteria over a 24-hour period). So not just practical, beautiful and green, reassuringly hygienic too.
