DECLARATION

Hereby we declare that the parameters of a MDF board produced by our company are in agreement with the PN EN 622-1 and PN EN 622-5 norms. We declare/confirm the class of reaction to fire: D-s2, d0 on the basis of table no 8 of the norm PN EN 13986 for thickness ≥ 9 mm. The mentioned above boards covered with melamine films in the process of lamination called melamine faced MDF board (MFB) are compliant with the specification of PN EN 14322 norm.

The results of tests conducted in the external laboratories and within the company's control of production confirm the above statement and the declared hygiene class E1. The certificate of compliance of the Quality Management System with international standards, which is included in EN ISO 9001:2015, is the best recommendation for the company's quality control.
